Education

- **Lovely Professional University, Phagwara | August 2020 – Present**
B. Tech Computer Science & Engineering with specialization in Machine Learning
Open Minor: DevOps
Current GPA: 8.53 (3rd Year)
- **Mansukhbhai Kothari National School, Pune | June 2018 – May 2020**
10 + 2 (CBSE)
12th Percentage: 77%
- **Sinhagad City School, Pune | June 2008 – April 2018**
Primary & Secondary Schooling (CBSE)
10th Percentage: 85%

Technical & Programming Skills

- Competitive Programming & DSA
- Networking, DBMS & Operating Systems
- Digital Electronics & Computer Architecture
- Linux, Maven, Git
- Machine Learning & Deep Learning
- C++, Python, JAVA, PHP
- Spring Boot, SQL
- HTML, Bootstrap CSS, JavaScript.

Projects

- **Student Management System | January 2023 | [Source Code](#)**
 - Designed & Created using JAVA, Spring Boot, ThymeLeaf, HTML, Bootstrap CSS, SQL, and Maven.
 - Simple and easy to understand website (focused mainly on backend).
 - This project helps to dynamically add, delete, and edit student details in database (MySQL 8).
- **Diabetes Prediction Model | September 2022 | [Source Code](#)**
 - Designed & Created using Python modules such as Sci-kit Learn, Matplotlib, Seaborn, Numpy, Pandas & Django.
 - This Machine Learning model predicts if a person has diabetes or not based on the data provided with high accuracy.
 - Included with an easy-to-understand GUI.
- **Weather Application | November 2021 | [Source Code](#)**
 - Designed & Developed using Python, Tkinter & XML.
 - API Based Project.
 - Foolproof GUI model that gives the weather statistics of any City.

Achievements & Activities

- Problem Solver @ LeetCode | Solved 150+ questions | November 2022 - Present
- Neo-Codethon Hackathon | September 15th, 2022 | [Certificate](#)
- Achieved a rank of **326** out of **13,781** participants in **Starters 59D** Division 4 on [CodeChef](#) | October 2022
- Regular participant of CodeChef competitions | 2-star coder | September 2022 – Present
- 30 days of ML, Kaggle | Participated in Melbourne House Pricing Prediction Model | August 2021

Coding Profiles

Certifications & Training

- Programming Pathshala – Competitive Programming | January 2023 - Present
- Geeks For Geeks – Data Structures & Algorithms (Self-Paced) Course | December 2022 - Present
- The Ultimate 2022 Full stack Web Development Bootcamp | December 2022 - Present
- Board Infinity - Cyber Security & Ethical Hacking | June-July 2022 | [Certificate](#)
- Inmovidu Technologies – Machine Learning & Deep Learning | December 2020 | [Certificate](#)
